## St Croix vacation

5/5 Stayed Apr 2023

Absolutely beautiful location and views. Truly paradise. Tons of space in the common areas with a large northeast facing deck and southwestern facing patio with a great pool. Sliding doors to the patio and pool securely lock, which was important traveling with our infant and toddler. Very clean. Has tons of cooking essentials which is super helpful. Also has a highchair which was great for our infant. Matt was great to work with. Attentive and available as needed. I would definitely recommend this property and hope to stay there again!

The views from all sides of the property were AMAZING!

We loved the privacy of this location, the amazing views, and spacious house.

Thank you for a great family vacation!

## Lovely setting

The owners could not have been nicer or more helpful. The house was the best equipped I have ever stayed in from the kitchen amenities to pool and beach toys to new yoga mats. It has a great open layout. Really has only 3 legitimate bedrooms as the 4th, which is an office with a bed on one wall,

has no drawers or closet or bedside table and lamp. The furnishings in the house were quite tired and frayed and largely a mishmash of styles. The throw rugs were scary in terms of what germs might be in them.

We worked around the inconveniences and had a wonderful time.

## Gotta love St. Croix

House had beautiful views and a nice pool. Appreciate the pool floats. Location is very private except the owner does stay on the property in the cottage next to the house. There were some things that were good and some things not so good. Sliding doors kept getting stuck. Never could lock the master bedroom slider. Ice machine stopped working after a day, pans to cook with were poor, and the house needed a good cleaning. One guest said the electric outlets didn't work in her bedroom/bath. (Take your own hairdryer-the ones there are not great) I didn't go on vacation to clean. Nice area to stay at, close to all we wanted to do, and the ocean breeze made it a joy to be outside. Lots of beautiful flowers and plants. If the house had been clean I would have given a higher ranking. No pillow protectors which grossed us out. We did enjoy coming back to STX, we owned a home there for a few years so I understand the challenges of island living, and probably couldn't rent to people- that takes guts. All and all, it could have been a perfect place, just needs some maintenance and attention to things that matter to guests.
