Experiencing the different CURRIES that Thai cuisine has to offer is like exploring the different regions of the land. The cooler North, SPICY and HOT - the influence of China and

India; the East and South, SWEET and SAVORY - Malaysia, and Portugal all make for a cuisine that is uniquely Thai.

All galangal's curry dishes have a pescatarian base* and are made to order. On scale of 1 to 10, Massaman is the mildest, at 🍌 and may remind you of India. The Red Curries are fragrant, rich and spicier and come in at a 🍌🍌. Green curry is the spiciest because it's made of fresh green Thai chilies which of course are younger and spicier. 🍌🍌. The heat can be negotiated down with more coconut milk or up with more chilies. Please tell your server how spicy you would like your dish and begin your journey.
