What a dream! One of the few houses on the island that has a fairly private beach! Jill showed us around the property once we arrived. Extremely private and quiet on a huge plot of land (mostly heavily forested). Highly recommend getting a chef as we thought food options on the island were scarce for high-end dining. Nonetheless we had an amazing time and will be returning promptly!

Several of us commented that this was our best tropical vacation ever—and we've travelled a lot. The property is unique and special and we had it all to ourselves. Amazing. This is a place one can relax deeply, allow reality to slip sideways and ebb away. We spent mornings and evening on the beach at the cabana and the rest of the time at the pool. For adventures, we fished for our dinners and followed up with kayaking to the impressive bioluminescent bay. I recommend booking a professional tour if you feel at all unsure; I got lost in the dark trying to find my way home. The house is spacious and features beautiful antiques in the common rooms. I could wish for more luxurious bathrooms: the house is a bit dated and rustic. If you're ok with that vibe, then you won't mind. We enjoyed the privacy and solitude and time together as family. Finally, the history of this particular bay is fabulously interesting.

Absolutely perfect property! Plenty of room inside and so much to do without even leaving the grounds. We had the best time and I would recommend this to everyone!

Galen's cove is an absolutely stunning property, with true beachfront access and gorgeous space to spread out, relax and enjoy. Unfortunately, the inside of the house has not only not been updated, but has multiple areas where wear and tear have really shown through the years, and haven't been addressed. Furniture on the beach had rusted to the point where legs were missing, the DVD player long-since had stopped working, and there were also multiple areas of the property where electrical was exposed (certainly bad with kids around). There were also some functional issues that made the property a bit difficult - for example, there's no light in the master bedroom shower - not to say you can't use another shower in the home, but it's not very functional. I would highly recommend this property for the beach, pool, and outdoor space - but not for the indoor areas until there are at least some minor updates and deferred maintenance is addressed.

I love this home. Is an incredibly charming home. Incredible amount of space to have big groups. Fabulous private beach. The communication was outstanding. Every morning I was mesmerize by the views!!!! I just don't have enough words to describe how much fun and privacy We for in this amazing home!!!! This is a well lived home nothing is new in this hose and honestly if it was I wouldn't enjoyed as much as I did. what makes this home the best in the island is the glamorous mid century island vibes with the best views in the area!!! I enjoyed every single corner of this home with incredible joy. Even the rainy days are amazing. Kayaking in their private kayaks is the perfect morning experience. If you don't want kayak just seat in the beach cabana and enjoy the uninterrupted views!!

I will definitely be back for more!!!

Jill and Yolanda are definitely professionals that knows how to take care of their clients !!

What an absolutely incredible experience at a showstopper of a property. We had a multi-family vacation including 7 adults and 4 kids aged 9 weeks to 2.5 years. This property was perfect. With small children, we had the option to have lots of activities on the property or leave and go about town. Also the place had a ton of common spaces where we could congregate but all the families felt they had some privacy, as we also made use of the bedrooms/kitchenettes in the pool house and round house.

You cannot imagine the stunning beauty of this property. A private beach with kayaks, snorkel gear, etc. There were also lots of items for kids including beach floats, toys, life jackets and more. My daughter had fun climbing the palm trees and swinging in the hammock. There is a small hut/cabana by the water so you can hang out in the shade and spend all day without getting too much sun. Highly recommend taking the kayaks out at night around the bay and experiencing the bioluminescence. You don't need to pay for a fancy tour! Just head out from the property. Truly an incredible experience; it's like you're in a Disney movie with pixie dust everywhere.

The house came stocked with some great kitchen staples which made it super easy for us to do our own...

Galen's Cove is a rare find. The location right on the beach surrounded by palm trees and gorgeous acreage is outstanding. The house is fabulous, funky and family friendly. If you're looking for a modern, all white, state-of-the-art house with big screen tv's, this is not for you. If you love an older, charming home full of history, glamour and memories, this is the perfect place. It's a mix of old Hollywood Regency and a stunning, private St. Croix Beach. We can't wait to go back again and again!
