We loved staying at this condo! The check-in process was easy because Larry gave us all the information we needed way before we needed it. The condo was clean, comfortable, and had all kinds of supplies for the beach and any excursions around the island. It felt like home. This was our 13th trip to St. Croix and Gentle Winds. We will be back :) Thanks, Larry!

Excellent condo for large family!

This condo was perfect for our family. We're a family of 5 with three boys (ages 16, 13 and 9). The condo was very spacious. We could have fit a couple more people if we needed to. My two teenage boys loved the spiral staircase leading to their own bedroom upstairs. The kitchen was well equipped. I cooked breakfast every morning and a couple dinners as well. The washer and dryer worked well. The pool was excellent and the beach was very nice. Not crowded at all. The Gentle Winds grounds were very spacious and relaxing. The condo is also very centrally located. The longest drive we made was to Point Udall which was a 40 minute drive. Everything else was 10-30 minutes. The booze cart is a great idea! We tried lots of different rums and added a couple to the collection. Larry was very helpful with the emails he sent after I booked and before we arrived. We had no issues during our stay.

Host's response:

We are always pleased whenever our growing number of returning renters choose our GW condo as their "go to" vacation destination. Equally, as here, we enjoy seeing all the aspects of the condo, its fabulous GW setting and the discoveries of St. Croix through the "fresh eyes" of our first time visitors.

Great Stay

We had a wonderful time at Gentle Winds. The location was perfect for everything we wanted to see and do in St. Croix. Condo was very spacious and we loved all the provided towels and sports equipment.

We enjoyed our stay at Pat and Larry's unit! The community is amazing and on our last day we saw a whale at the beach! You can snorkel right at the beach, enjoy a drink and snack from the beach shack, or take a dip in the recently remodeled pool. The unit itself is bigger than we realized, it basically has 2 master suites and the room off the upstairs master gave our family enough space for everyone to have their own space. The property manager is an absolute gem of a person! The location is close enough to CSted for convenience but far enough to feel like you're really getting away from it all. The kitchen is well stocked with utensils/plates/cups and there are plenty of extra towels and blankets. We enjoyed our stay! Thanks!

Host's response:

Always happy to hear when we live up to or exceed our guests expectations. Only exception--we can't promise whale sightings!
