## Amazing views of Grapetree Bay

Beautiful home with fantastic views. Amazing sunsets! We loved hiking to Jack and Isaac's beaches in the nature preserve. Tropical paradise all to ourselves. There were even days some of us didn't leave the house. Very helpful island tips from the owner and the caretaker Renee. We highly recommend this island villa!

## Beautiful view, nice house, remote location

We enjoyed our stay in Grapetree. The view from the patio and pool is fantastic, the kitchen has everything you need to cook full meals, and the property is very well-maintained. There's a nice, quiet beach at Jack's Bay about 3/4 of a mile away—a bit of a hike, but nice to have the whole thing to yourself. Only downside is there aren't many restaurant options within 20 minutes. Most are 30-45.

## A beautiful home in paradise

My wife and I spent a week here in July and could not be more pleased with the accommodations. The property is very private and the views are truly awesome. It was very clean and everything worked as expected.

There is a caretaker, Renee, that lives on the bottom floor but we only saw her twice. She was very nice and accommodating and she helped us plan our daily adventures in St. Croix!

We are planning to stay here again next summer!

I was so thankful at the super quick response and availability in such short notice! We LOVED staying here! The views are incredible day and night! The sound of the ocean 24/7 and the beauty of the Caribbean every morning when we woke up! The pool was just perfect for a dip to cool off and to float at night and look at the stars! The caretaker was so sweet and helpful! The local kitties are cute and the other wildlife was so fun to watch!! Would definitely visit again!! I only wished there was a/c everywhere but I totally understood electricity isn't cheap there and at least i had it at night! Thank you so much for letting us stay there!!
