Peaceful getaway!

We just got home from our weeks stay at Hidden Valley! What a great house. Definitely home away from home. Lots of extras not listed as I'm sure they can't guarantee things will be there. But things like a sewing kit, sunscreen, flavored coffee creamer just to name a few. Nice surprises that made it more comfortable. Beds were comfortable which is my biggest thing, I'm picky and slept very well. It's peaceful out there. And when I say out there it's because it is far out. 20 min into town but it's worth it. I enjoyed the peace. Just about a five minute walk down to the most beautiful and again peaceful beach. Low tide it the best. We went every day and only saw people on the beach once. You really feel like it's your private place. Highly recommend, would stay again in a heartbeat. Host were very responsive and easy to work with.

This was our fourth trip to the island and by far the best place we have stayed at. The location is beautiful, quiet and easy to find. The villa has everything you need and everything works. The hosts were very gracious and responded to a question within minutes. You can't go wrong staying here and I can't wait to book our next vacation at Hidden Valley Villa.
