Diving Itinerary

Our daily dives are scheduled with the following itinerary: Departure time is at 10:00 AM from Cruz Bay or Redhook Depending on demand.

We will take you to five amazing sites near either Lovango Cay or Christmas Cove. The commute time is between 20-30 minutes depending on sea conditions.

Each dive will last the duration of 30 minutes maximum, again depending on many variables. From here snacks and beverages will be served and a unique site seeing your lasting approximately 30 to 40 minutes will follow exploring the cays and bays of the beautiful Caribbean islands. The trip will conclude at approximately 12:30 pm.

We are excited to be your ‘one stop shop’ to make your vacation the best vacation ever...

We are excited to make this aspect of our excursion more available as demand increases and thank you for your patience throughout this process. Please let me know if you have any additional questions.
