Everything was great! House and scenery were beautiful. Great central location to visit all corners of the island.

The house was fantastic, and the owners were very responsive and wonderful to deal with. The house was very clean! It is perched on top of a mountain with an incredible view. The drive up to the house is a windy mountain road, but it is paved and easy! We enjoyed our daily visits from Scubie, the neighbor's very sweet dog. We didn't even use the pool because we were too busy exploring the island, but it was very pretty and well maintained. Overall I would highly recommend this house, especially for a small family or two couples.

The property is exactly as advertised! The owner and property manager responded quickly to any question we had. The view was outstanding, the location quiet, the pool was bigger than I was expecting.

The house was perfect for two adult couples with our own private rooms and bathrooms. Great views from both the back and front, pictures don't do it justice. Easy check in and excellent communication before and during the trip with the property manager. Highly recommend!

We spent 10 nights here at the end of March 2022 and did not want to leave. The location is great. Beautiful views of the north side of the island including sunrises. The pool is great as it has a deep end which we always enjoy. All of the appliances are new and there is a lot of space in the open area. It is also centrally located so it is 30 minutes to Point Udell and a little less over to Sandy Point. You can get to Christiansted for dinners in about 15-20. We are going to provide the hosts (who are great to work with) a PDF with some day outing ideas based on what we did. We were extremely active and did a lot of beach hopping and exploring of this beautiful island. We highly recommend this property and plan on returning in the future.
