★ 4.9 Wonderful!

Fabulous

5/5

Stayed Dec 2022

My second stay on St. Croix and this place is really spectacular. Very private and quiet. We stayed during the President's visit and so had to take the South Shore road every day but we had no problems whatsoever. The place is clean and well supplied. Sara was spectacular on every way. The driveway is quite steep but we managed with a Toyota Corolla (last available car on the island I think)! My only (very minor)critique: need better pillows on the beds. They are thin and not befitting of such a lovely place. I would definitely stay there again and would highly recommend it to anyone.

Avalon is a quiet, clean, spacious and calming place. It is on the east end and close to Duggans and the Reef. The whole place made us feel at ease. Christie was very nice, easy to talk to and very friendly when she welcomed us. We would definitely come again!

This property's pictures do not do it justice. Lets start with the kitchen... amazing place to cook. Lots of spices, and all the items you need to make 3 meals a day. Grocery store is only about 10 minutes away. The bedrooms were immaculate, lots of closet space, and big beds with comfy pillows, plus the AC in the bedrooms made for a good night sleep on hot days. The bathrooms large and the shower amazing, not to mention the window in the shower allowed you to watch the Sea while you were washing your day away! Then lets go to the pool shall we... amazing, clean, cool in the morning, warm in the afternoon. Overall a really great experience. You will need to rent a jeep or small car, as this home is on the East end away from all the noise. Note- this is the drier end of the island, we had just 3 rain showers lasting a total of 30 minutes between the 3 of them. If you are looking for peace and quiet this home is for you. Oh and the WI-FI was excellent, so if needed we could stream movies, and check emails. Enjoy

Avalon was a perfect place to stay on St. Croix - ideal for 2 couples. 2 identical master bedrooms, a large common area with kitchen, dining room table, and family room - the common area flows right outside to the pool - if you like shade or sun, you are all set. The views are spectacular from sunrise to sunset. Very quiet and peaceful location. From booking through our last day, it was very easy - Christie is a wonderful property manager. A few of our favorites - sunrise at Point Udall, hiking Trumbull Trail to tide pools, bioluminescent bay kayak tour, Hams Bluff lighthouse hike (recommend a Jeep, it feels a bit like off-roading to get to trail head), and the absolute best was a private charter with Caribbean Sea Adventures - 5 hours on Wasted Time - included Buck Island snorkeling and beach time. Restaurant recommendations - Duggan's Reef, The Galleon, Savant, and Ziggy's for take out. Another great feature of the house is the propane grill, we cooked fresh fish and steaks which was a nice alternative to going out. Perfect Vacation!
