One of the best places I have ever stayed. Quiet area, and wonderful views. Wish I was still there. The House is well stocked and maintained.

This home is everything the pictures show and then some. Really large pool, many patios to choose from to enjoy the views to the north, east and south, large bedrooms with a/c, and one of the best equipped kitchens we have experienced at a rental. The property manager, Stephanie, met us to show us to the home (private addresses are not easy to get to via google maps) and show us around. She was incredibly responsive to us via text, whether giving pointers on things to do or answering questions about the property. When the propane powering the gas range ran out, she was there within 15 minutes to switch it out.

We tried a few grocery stores during our stay and found the Cost-u-less to be best suited to our needs — they are a warehouse store like Costco but also have smaller quantities of produce, dairy, and baked goods; the produce seemed better quality here than anywhere else we shopped.

Duggan's Reef, the restaurant right at the bottom of the hill near the property, is adjacent to a public beach that we didn't discover until several days into our stay — we recommend it for a very nearby and easily accessible beach experience, complete with lounge chairs and a couple of tables. (Park by the restaurant and the well maintained walkway will take you to the beach. We had a good meal at the restaurant too — they serve dinner only and you should make a reservation a few days ahead if you can.)

What a wonderful home! The house was incredibly stocked and Sara was very responsive to all our questions. We had a fun-filled week exploring the island and enjoyed coming back to the house to relax and enjoy the incredible views. Thanks for the memories!

We had an amazing vacation at this house! We were met by the property manager and shown around. She answered any questions we had and was very quick to respond. The house is incredible! Beautiful views, so much space, comfortable beds, and decorated beautifully. The pool was also amazing. Very impressed with how well it is maintained. While we enjoyed exploring the island, we were just as happy staying at the house lounging on the patios or in the pool! We've stayed at quite a few rental homes and condos and this house was the BEST stocked house we had ever stayed at!!! We had a fabulous time and would definitely rent again!!

This house was amazing! We loved the outdoor living spaces and pool but most of all the privacy. We weren't sure about the "open air" living space but it was actually quite enjoyable with the constant breeze. So glad we had nice air conditioned rooms to retire to at night. We found this property to be the best stocked VRBO we have ever visited. Loved this property!
