Not NEW!!! I was not impressed and honesty it was false advertising totally not what was stated

1/5 ★☆☆☆☆

Instead of being honest, they left the description as is when the island is still recovering from the hurricane. No tv, no internet only hotspot and you have to pay isn't that strong either. (luckily I got reimbursed for this) Rust on the curtains, rust and dust build up on the ceiling fans etc. honesty I could go on :(((I book this and when I arrived I couldn't find anything else due to the holiday so I had no choice but to stay and make the best of it with my kids. FYI the restaurant on property is closed and has been since the hurricane

Manager's Response:

Amy, we're very sorry to hear that your experience at this condo was disappointing. This home has since been taken over by new owners who have done a complete remodel to the unit after the storm. They have high standards for guest satisfaction and look forward to hosting 5-star stays. We would love the opportunity to travel with you again to show you the many updates that have been made here!
